ADELAIDE HILLS

## 2008 LATE HARVEST GEWÜRZTRAMINER

“Tomich Hill Wines” is a family owned company. Established by the Tomich family with a desire to produce premium cool climate wines, their vineyard is located just north of the township of Woodside in the Adelaide Hills, South Australia.

2008 was a challenging year - we once again had a heat wave in January. Fortunately in the Adelaide Hills it was in early veraison and we were able to keep the water up to the vines and maintain fresh canopies. This was followed by four weeks of relatively cool weather which slowed ripening resulting in a good year indeed.
